As next Monday will cents the status of aspirants for Municipal honone, we shall not be presend with so many lettera for some time to come.

13- A Concert to connection with the Sabbath School of the Congregational Church will to held this (Friday) evening, - when the chil. dien will sing a number of appropriate pieces, and addresses will be delivered by several Rev Gentlemon and others. When we call to summer, and the care and attention bestowed by Miss Smith, and then recollect that since that time she has devoted much labor to cultivate musical taste among the children, we make no doubt the above occasion will be one of pleasure and profit.

"Glorious Old Norfolk."

The electors of the above constituency to the number of seven hundred, recently gave a public dinger to the Parliamentary Oppocition, in the Town of Simcoe. From all accounts, the demonstration was a perfect auccess-slike creditable to the yeomanry of the County as well as the managing committee, - furnishing, as it does, an idex to public contiment in the West. Among the speakers present, we observe the names of WM. MoDougall, Esq., M.P.P., Hon. M. H. POLEY, M.P.P., WALKER POWELL, Esq., M.P.P., and L. BURWELL, Esq., M.P.P.

public attention to the true position of affairs in the country. Mr. McDouoall was the first speaker in reply to the toast of " Her Majesty's Loyal Opposition," who briefly explained the reason of the absence of Hon. GEO. BROWN-to the effect, that he was now engaged in New York, in bringing out his recent invention for the manufacture of abeap printing paper. He then adverted to the success of opposition principles-resulting in carrying 5 out of 6 Oppositionists to the Upper House during the recent elections. He then polated out the policy parsued by the present Administration in order to retain power, and exposed in a most telling manner, the descitful conduct and double-dealing of the Upper Canada Leader of the Governrosat. He also referred to the various charges brought against Mr. BROWN-showed their untrathfulness,-and then detailed the cophistical manner in which government organs generally backed out of their position, when the true facts of the various charges were brought to light. Mr. McDougall elso referred, at considerable length, to the grievances between Upper and Lower Cana. ds showed how the policy of the existing large, instead of removing, those grievances, tration of Cartier & Co., showed by actual data from the public accounts, that the ex-

When Mr Brown was called upon to 17 In consequence of a press of business form an Administration, he and Mr Dorion we have been unable to arrange our newspaper proceeded at once to consider, not only the propriety of forming an Administration, but the practical consequences which would result from it. They saw that Upper Canada was divided from Lower Canada by an almost impassable gulf. They saw that for years together a majority of Lower Canada had been dragged at the heels of a minority of Upper Canada, enabling them to set at defiance the well-understood wishes and de sires of the majority of the people of Upper Canada. That was the position of things when the Brown-Dorion Administration asanmed power. Strong differences, arising from years of accumulating hatred, existe between the people of Upper and the people of Lower Canada. It was said, however, by Mr Dorion, when called upon by Mr Brown to join in forming an Administration, that the feelings which were supposed to exist or the part of the people of Lower Canada towards the Upper Canadians really did not exist that the people of Lower Canada had been misled, and that they had been induced to sid the Coalition Government in inflicting from a misapprehension and misunderstanding of their true position. But it was seen that difficulties, real difficulties existed, and the basis of that Administration was the removal of these difficulties, on the principle of justice to Lower Canada as well as justice to Upper Canada."

Municipal Election.

Since our last issue matters have settled down into something like a tangible shape, and the relative positions of parties are now more properly understond. Like the sister village of Bradford two tickets will be run in Newmarket-but the object is very different. On the one side we have Dr. Honter, A Booltbee and Win. Trent ; on the other, D Sutherland, R. H. Smith, John Davison and A. J. McCracken-with George Bache mind the pleasing entertainment given in the doubtful, and claiming independence. There are two questions before the rate payers, and upon which they are required to pronounce judgment at the approaching coatest-the of Recreship and equitable toxation, The one party, so far as we can understand the matter, is anxious to place Dr. Hunter in the Roove's chair, and are also distatisfied the unequal assessment of the past year; while the other, is in favor of continuing Mr. Sutherland as Reeve; they also contend that The last assessment was far more equitable than on any previous year, and as near the wark as can be obtained,

Now comes the tug of war-those in farm of the course pursued by Dr. Hunter whe Reere in 1859, and who consider the assessment of last year as partial in its character will be expected to support the Hunter ticket while those in fatour of continuing Mr Sutherland in that important office, and are satisfied with the present assessment, will cart their The speeches on the occasion were foreible votes in favour of the Sutherland ticket .and poluted, and well calculated to arouse It is a gity that in a small village like New market a necessity should arise for party tick ets on matters of local importance merely ; but it is too late now to indralize on this point -The electors bare an important part to per- ments, if they are necessary, as any other forin at the approaching contest, and the resoft must tell upon the future government of our village. Mr. Cooke's Reply. To the Editor of the New Era. Sin-I have observed, of late, severa articles in your paper, the object and intent Hon. M. H. Polky delivered a telling of which have been to mislead the public mind and to accomplish the ends of the writers and those of their friends at the ensuing election. And in so doing they have not and showing that it would be for the benefit of the village, for them and their friends to take the reins for a few years. To such course I chould have no objection, however much I might object to place them in that in council have been assailed and their charnoters attacked under cover of a fletitious name, because these gentlemen were believed to be in the way of their ambition and that of their friends. Is it not lamentable that there are men, who to secure the object of their ambition, can wilfully exerifice those friends who have stood by them in the hour of need?. Is it not still more so, that men can be found, for even an occasional supper ing-Room, who are willing to lift their pon and under a fictitious name maligo the characters of men they would be afraid to meet in open daylight. It is painful to think that we should allow our petty municipal affairs to interfere with all that we as men hold dear. Friendships are severed, confidence destroyed, honesty and truth have fled from our midst and persons that have heretofore mot as friends are looked upon as enemies .--And why? Because a few designing men are anxious to place themselves in certain po sitions, and all must succumb, and if their way, must be degraded in public opin-If a man desires to get into the council, I give that man credit if he uses honorae and honest means to secure his object .-But how mean, how devoid of principle, how contemptible it is for any one to attempt to gain that by attempting to destroy the publie character of those with whom they have acted previously; and especially when their every act while in the council was lauded and highly approved of by them. I have been led to these remarks by observing an article in your last issue over the signature of " Equal Taxation." Just to quiet his nerve I would give him authority to carry to his masters the assurance that I do not intend to run. When the Committee entered upon their duties, they found that to do snything they must do a great deal. They passas nearly as it was possible at the time. After getting into the work, from the bad state of the bridge, and a great deal more work than was contemplated on Mill Street, they found that their estimate was too low. They asked the sparring, the resolution was put to the meetcouncil for a larger grant and their request was acceded to; but even here they would have stopped the work, though it would have cost one third more to have completed it the following year if it had been stopped, till we were certain that the municipality would be put to no inconvenience to meet a debt by our contraction. One of the committee was generous enough to offer the amount till funds would come into the Treasurer's bands .--Now sir, I will ask any candid man whether under the circumstances, we did right or wrong in going on with the work; and let them just glance at Newmarket in the commencement of '59 and at the close of the same year and mark the improvements .-Church or School was accessible but through sible to tell. mud in wet weather. To the Editor of the New Era.

Sin-The several lettors which bare of late appeared in your valuable journal, refating to Municipal affairs, indicate pretty clearly, a determination on the part of the people to closely scan the acts, and designs of their representatives, to see whether their practical apheation of power agrees with then professions in pursuit of it. I rejoice to see an interest inanifested, which can but prove salutary, Delegated poner is very-liable to be abused, hence there is great necessity on the part of the people of a vigilant surreillance over their delegates. It is very certain that constituency, possessing auffeinal intelli gence to appreciate the value of honest trust morthy representatives and sufficient mora courage to relieve those that are not so, wil not continue to be misrepresented for any great length of time, I have been much pleased in reading the

communications, as they have appeared from lime to time, and particularly those signed respecifully "A Voter" and " Another Rate ayer," as they more immediately interest the Municipality. On the appearance of " Voter's" letter, ofter reading it excelully over, I proceeded to examine all documents within my reach, bearing on the points mention ed, and also made pretty thorough inquiry parties possessing a knowledge of the facts and regret to say that I . find the statements made by a "Voter" lully borne out. On the appearance of the letter of Another

Ratupayer," I experly read it over hoping and an auswer to the statuments of a ". r at least some initizatory statements, but looked in vain. It is a true raying. Mr Editor that a good cause is often injured by a bad idvocate, and in charity to the parties accused must suppose it the ease in this instance.

However, Bir, taking the statements of both Voter" and "Rate payer," and comparing them with colleteral evidence, as an hones will wisher of the Township I cannot conscientiously rote for Mr Macklem, as I do not consider him at all qualified to instruct Mr Brodie how and when to Vote, and as it seems to be occessary to have someone for that pur pose I trust that we at heast those of us who live South of the Ridges, will insist on the relection of some person more competent for that as well us other duties pertaining to the office of Councillor than Mr Macklem has proved himsell to be.

I remain, Mr Editor, Yours very holy. FLAY PLAY. Whitehurch, Dec 29th, 1860.

Then, as to the object to be quite clear than two companies of the 73rd. gained by the letter? why, to make a little ling to the spot, interrened between the 5th capital for himself to be sure. Mr. Smith and their arms to as to present the possibility authoritively asserts that he understands these of any rush to rescue them. When this was matters; if he does, then so much the worse accomplished, the Brigadier read the order for himself, for I fearlessly assert that the pronouncing the doom of the regiment. It Assessment Roll proves that he has deliberwas struck out of the Army list-and its nonately stated what is not true. It is not true commissioned officers reduced to the ranks, that he is assessed higher this year than in and the men were drafted with the fire te-1858 and 1859; the very reverse of this is maining regiments of the Bengal army. the fact, for instance, in 1858 his total as-Alea with medale on their preasts, who had sessment was \$285; in 1859, \$281; in 1860, fought England's battles all over the world ; \$272, yearly value, but in 1860 he was asmany of the old suldiers who had been drafted sessed on property of the yearly value of 864 from the old Bengal and from the Royal regifor which he was not sesseed in 1859; deduct this amount from this year's assessment and the result is 1859, 8281; 1860, 8208. How he will explain this I know not, but I do know how I can explain it, that is, he put in property at \$1,000 this year, which in the two previous years he put in at \$2,000; but if Mr. Smith wishes to shirk his personal property altogether, we will accomedate him

and exumine his assessment only to for as i

relates to his real property. In 1858, his

house was rated at 896; in 1859, at 890;

in 1860, at 884. Now, with the other items

in 1858, all his property on the west side of

Main-st., with the exception of his house, is

put dow at 112 acres, at a yearly value of

33, it is therefore impossible to make a cor

rect comparison between that year and 1860.

In 1859 he was not assessed for his house on

Smith-st., or his office and lot on Main-st, of

the yearly value of 864. Now, as he was as-

sessed for these properties in 1860, it is clear

that in making a comparison between the 23-

essment in the two years, this amount must

be deducted from this year's assessment; do

so, and the result is as follows :- 1859, total

assessment on real property \$161; 1860, to-

appearing it could only be at 87 instead of

to Mr. Smith's veracity? he must be simple

as well as dishonest to try to cram such a tis-

sue of fabrications down the throats of the

electors. Let those who have in times past

placed any faith in Mr. Smith's word, read

circfully his letter, and then examine the as-

sessment roll wherein is recorded the unau-

swerable evidence of his misrepresentation

and falsity. I may add that Mr. Smith has

brought this upon himself by his over anxiety

to play well his part in the conspiracy to

oust me from the (Council; as I am not

aware that I have ever specially attacked his

general assessment, I have, however, contend-

ed, and still contendathat his 104 acres of

land; situated in the heart of our village,

should not be rated as farm land; that in

stend of it being rated at \$40 per acre, when

it is really worth ten times that amount, it

should (like my property and yours) be

rated at half his actual value, and taxed ac-

cordingly. In fact, that instead of Mr.

Smith paying annually the paltry sum of 82

tix on this valuable property, he should pay

assessment is concerned. I certainly have

to do so until the law is respected and justice

oughly from every abomination. But he hath | ject I will go a little further, and ask, how

YOUNG MEN. There is an evil habit sometimes indulged in by boys, in solitude, often grawing up with them into manhood, and which, if not reformed by them in due time, not only begets serious ofistacles to matrimonial happiness, but gives rise to a series of protracted, fasidoms, and devastaring affections. Few of those who give way to this peroicious practice are aware of the consequences, until they find the nervous system shattered, feel snange and uncomfortable feelings, and vague fears in the mind.

Self-abuse is one of the most formidable ene intes of health, for malning else in the dire catslogue of human diseases causes to destructive a drain upon the human system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It de stroys the netrons system rapulty, wastes away the energies of life, causes mental derange ment, prevents the proper development of the -yelem, di-qualifies for marriage, society, business, and all earthly happiness, and leaves the sefferer wreeked in tody and mind, predisposed to consemption and a train of evils more to be dreaded than death itself.
